BEFORE THE FIRST USE

Remove all packaging materials and any promotional labels or stickers from your Cuisinart® Griddler® Grill Centro. Be sure all parts (listed in, **Parts and Features**) of your new appliance have been included before discarding any packaging materials. You may want to keep the box and packing materials for use at a later date.

Before using your Cuisinart® Griddler® Grill Centro for the first time, remove any dust from shipping by wiping the base and temperature control dial with a damp cloth.

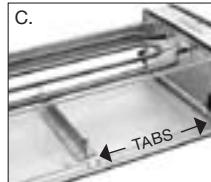

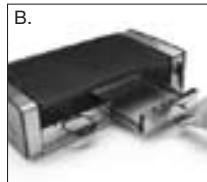

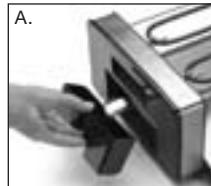

Thoroughly clean both sides of the reversible grill/griddle plate, as well as the drip cup, kebab drawers, skewers and hot dog rollers.

The grill/griddle plate, skewers, hot dog rollers, heat shield, drip cup and kebab drawers can be handwashed or placed in the dishwasher for cleaning.

Never place the housing in water. Always use a damp cloth to clean these parts.

ASSEMBLY INSTRUCTIONS

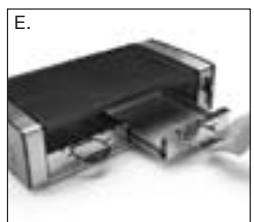

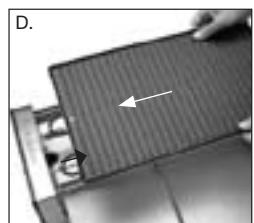

1. Place base on a clean, flat surface where you intend to cook.
2. One end of the base has an opening provided for the drip cup. With the metal spout tilted slightly forward, slide the drip cup into the base and push in until the tab is locked (see figure A).
3. Insert kebab drawer by sliding the top rim of the back wall of drawer over the small round tabs on either side of opening. Push drawer back until front is securely in place behind round tabs. Push drawer into unit, (see figures B and C).

lifting it over the retaining bar to secure.

To remove drawer, allow to cool for 30 minutes. Remove all skewers, then lift drawer up and over the round tabs, and pull it towards you.

4. The cooking plate has two sides: The grill side with ribbed surface is intended for grilling steaks, hamburgers, chicken, seafood and vegetables. The griddle side with smooth surface is perfect for frying bacon and eggs, pancakes, French toast and toasted sandwiches (see figure C). Choose the side you intend to cook on and place the grill/griddle plate on the base with the chosen side facing up. It is important that you place the grill/griddle plate onto the base correctly. Locate the drip hole on one end of the grill/griddle plate (see figure D). Place the grill/griddle plate onto the base with the drip holes lining up over the metal drip cup spout on the left side of the unit. If the grill/griddle plate is placed on the base with the drip holes at the wrong end, it will not sit level.
5. Insert the drawers on the bottom of the unit under the grill/griddle plate (see figure E).
6. Plug the cord into a standard electrical outlet. You are now ready to begin cooking.

OPERATING INSTRUCTIONS

Once the Cuisinart® Griddler® Grill Centro is assembled properly and you are ready to begin cooking, turn the temperature control dial to the desired temperature setting – High, Medium or Low (see figure F).

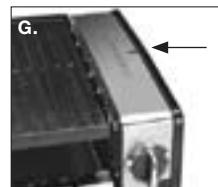

The indicator light on the top of the unit will illuminate to indicate that the unit is operating (see figure G). It may take 10 to 12 minutes to reach operating temperature, depending on the temperature level that has been selected. The temperature control dial is used to set and maintain the temperature of the cooking surface. Temperatures range from about 250°F on the Low setting, 375°F on the Medium setting to 450°F on the High setting. You can vary the setting of the temperature control dial at any time during cooking, and may wish to do so depending on the types of foods on the grill/griddle plate. Refer to the **Cooked Food Temperature Chart** on page 3 of the recipe booklet for recommendations.

CAUTION: Handles will become hot during use. Always use a pot holder when touching any part of the unit when cooking. The grill/griddle plate should not be removed from the base or flipped over while hot. Allow unit to cool down for at least 30 minutes before handling.

NOTE: The first time you use your Cuisinart® Griddler® Grill Centro, it may have a slight odor and smoke a bit. This is normal and common to appliances with a nonstick surface.

Reversing grill/griddle plate over to use reverse side

1. Turn temperature control dial to Off setting.
2. Unplug appliance from wall outlet.
3. Allow unit to cool down completely (at least 30 minutes).
4. Carefully slide out the drip cup by pressing down on the tab, and

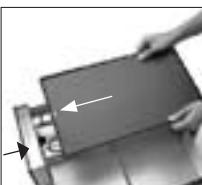

gently pull out the cup to dispose of its contents (see figure H). Clean cup and replace in base. (See Cleaning and Care, page 6.)

5. Thoroughly clean grill/griddle plate. (See Cleaning and Care.)
6. Flip the plate over, and return to base.
7. Make sure that drip hole in plate lines up over drip cup (see figure H).
8. Reconnect the plug into a standard electrical outlet.

Using the kebab feature

1. Assemble the unit with the grill/griddle plate, kebab drawers, and drip cup in their proper positions. **Note:** grill/griddle plate must be on unit when using kebab feature. Please keep in mind that it is very hot when the unit is operating.
2. Turn the temperature control dial to desired temperature and preheat for approximately 10 to 12 minutes.

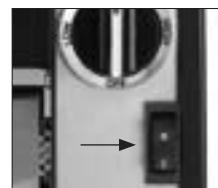

3. Prepare food according to your favorite kebab recipe and slide pieces onto skewers.
4. Pull drawers to open. Place skewers into the skewer slots so the star-like shape at the end of each handle is inserted into a gear slot in the front end of the kebab drawer. Close drawer securely.

Note: If using large cubes of meat or seafood, you may only be able to cook six kebabs at once.

5. Press the kebab control switch to ON. The switch light will illuminate to let you know kebabs are rotating.
6. To check to see if kebabs are cooked, press the kebab control switch to stop skewers from turning and remove a kebab with a potholder. If more time is needed replace the skewer and press the kebab control switch to resume cooking.

Using the hot dog feature

1. Assemble the unit with the grill/griddle plate, kebab drawers, and drip cup in proper positions. **Note:** The grill/griddle plate must be on unit when using hot dog feature. Please keep in mind that it is very hot when the unit is operating.
2. Turn the temperature control dial to desired temperature and preheat for approximately 10 to 12 minutes.
3. Assemble the hot dog rollers by slipping the kebab skewers through the holes in each end of the hot dog roller caps.
4. Pull drawers to open. Place skewers with hot dog rollers into the skewer slots so the star-like shape at the end of each handle is inserted into a gear slot in the front end of the kebab drawer.

5. Using tongs, position the hot dogs in between two of the hot dog rollers. Four hot dogs will fit over each of the drawers. Close drawer securely.

Using kebab, hot dog and/or grill-griddle feature together

You may use different cooking features simultaneously. Follow instructions on page 4-5

USER MAINTENANCE

- Never use metal utensils, as they will scratch the nonstick grill/griddle plate. Instead, use only wooden or heat-proof plastic utensils.
- Never leave plastic utensils in contact with the hot grill/griddle plate.
- After using, scrape excess food buildup through drip hole and into drip cup, then wipe off any residue with a paper towel before proceeding with next recipe.

CLEANING, CARE AND MAINTENANCE

CAUTION: BEFORE CLEANING APPLIANCE, MAKE SURE IT HAS COOLED DOWN COMPLETELY.

Once you have finished cooking, turn the temperature control dial to the Off position and unplug the power cord from the wall outlet. Allow the unit to cool down for at least 30 minutes before handling. Dispose of grease from the kebab drawers and drip cup once cooled. The kebab drawers and drip cup can be cleaned by hand or in the dishwasher.

The grill/griddle plate can be washed by hand, using a soft sponge or cloth and hot water. It may be washed in the dishwasher, as well.

Do not use metal objects such as knives or forks for cleaning the grill/griddle plate. Do not use a scouring pad for cleaning. The nonstick coating can be damaged.

If you have been cooking seafood, wipe the grill/griddle plate with lemon juice to prevent the seafood flavor from transferring to the next recipe.

The drip cup, kebab drawers, skewers and hot dog rollers may be submerged in water or washed in the dishwasher.

The housing base, and temperature control dial can be wiped clean with a soft, dry cloth. For tough stains, dampen cloth. Never use abrasive cleaners or harsh pads.

Any other servicing should be performed by an authorized service representative.

STORAGE

Always dry and assemble your Cuisinart® Griddler® Grill Centro before storing. Ensure that the base, grill/griddle plate and kebab drawers are correctly positioned. The power cord can be wrapped around the back of the base for storing.

The retail store shall then, at its discretion, either repair the product, refer the consumer to an independent repair facility, replace the product, or refund the purchase price less the amount directly attributable to the consumer's prior usage of the product. If the above two options do not result in the appropriate relief to the consumer, the consumer may then take the product to an independent repair facility if service or repair can be economically accomplished. Cuisinart and not the consumer will be responsible for the reasonable cost of such service, repair, replacement, or refund for nonconforming products under warranty.

California residents may also, according to their preference, return nonconforming products directly to Cuisinart for repair, or if necessary, replacement, by calling our Consumer Service Center toll-free at 1-800-726-0190.
