D-Link®
Building Networks for People

AirPlus® G
Expand Your Wireless Network

Features and Benefits

● **Increase the Coverage Area of Your Wireless Network**

The DWL-G710 is designed to expand the wireless coverage area in a home, office, or small hotspot. For all users on the network, the increased coverage area grants greater mobility and more freedom for roaming throughout the location. Extend the wireless signal into those hard-to-reach areas and enjoy the convenience of wireless access.

● **Works with Virtually all 802.11g Wireless Devices**

Compatibility is no longer an issue when it comes to expanding an existing wireless signal. No longer being limited to a list of compatible products, the DWL-G710 works with virtually all 802.11g network router and access points. Save the hassle of finding a compatible product, the DWL-G710 is your solution. In addition, any client 802.11g and 802.11b device can communicate with the DWL-G710.

● **Supports Standard WEP Security**

As data wirelessly travels over the network, this Range Extender supports 64/128-bit WEP security to ensure all your data communication is secure from prying eyes.

● **Backward Compatible to 802.11b**

The DWL-G710 is fully compatible with all IEEE 802.11g devices and is backward compatible to 802.11b. This means all 802.11b-compliant wireless devices can still communicate with your DWL-G710.
