# IMPORTANT SAFETY INSTRUCTION

	<b>CAUTION</b> RISK OF ELECTRIC SHOCK DO NOT OPEN	
<b>CAUTION:</b> TO REDUCE THE RISK OF ELECTRIC SHOCK, DO NOT REMOVE COVER (OR BACK). NO USER-SERVICEABLE PARTS INSIDE. REFER SERVICING TO QUALIFIED SERVICE PERSONNEL.		

The lightning flash with arrowhead symbol, within an equilateral triangle, is intended to alert the user to the presence of uninsulated "dangerous voltage" within the product's enclosure that may be of sufficient magnitude to constitute a risk of electric shock.

The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and servicing instructions in the literature accompanying the appliance.

<b>WARNING</b>	TO REDUCE THE RISK OF FIRE OR ELECTRIC SHOCK, DO NOT EXPOSE THIS APPLIANCE TO RAIN OR MOISTURE.
<b>CAUTION</b>	TO PREVENT ELECTRIC SHOCK, MATCH WIDE BLADE OF PLUG TO WIDE SLOT, FULLY INSERT.

**FCC NOTICE:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rule. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception; which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experience radio/TV technical for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.

<b>CAUTION</b>	Any changes or modification in construction of this device which are not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
----------------	---

- 1 Read these instructions.
- 2 Keep these instructions.
- 3 Heed all warnings.
- 4 Follow all instructions.
- 5 Do not use this apparatus near water.
- 6 Clean only with dry cloth.
- 7 Do not block any ventilation openings. Install in accordance with the manufacturer's instructions.
- 8 Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
- 9 Do not defeat the safety purpose of the polarized or grounding-type plug. A polarized plug has two blades with one wider than the other. A grounding type plug has two blades and a third grounding prong. The wide blade or the third prong are provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.
- 10 Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.
- 11 Only use attachments/accessories specified by the manufacturer.
- 12 Use only with the cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart is used, use caution when moving the cart/apparatus combination to avoid injury from tip-over.
- 13 Unplug this apparatus during lightning storms or when unused for long periods of time.
- 14 Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.

# READ CAREFULLY BEFORE USING

Please read carefully before using this unit.

## Placement and handling

- The picture and sound of a nearby TV, VCR, or radio may be distorted. In this case, position the unit away from the TV, VCR, or radio.
- Do not use volatile liquids, such as insecticide spray, near the unit. Do not leave rubber or plastic products in contact with the unit for a long period of time. They will leave marks on the surface.

## When Not in Use

- When the unit is not in use, be sure to remove the disc or tape and turn off the power.
- If you do not use the unit for a long period of time, remove the remote control batteries to prevent leakage.

## Moving

- The original shipping carton and packing materials come in handy. For maximum protection, re-pack the unit as it was originally packaged at the factory.

## Cleaning

- Use a soft, dry cloth. If the surfaces are extremely dirty, use a soft cloth lightly moistened with a mild detergent solution. Do not use strong solvents such as alcohol, benzene, or thinner, as these might damage the surface of the unit.

## Maintenance

- This is a high precision video device. For optimal performance, we recommend regular inspection and maintenance every 1,000 hours by qualified service personnel. Contact your dealer or nearest service center.

## Antenna Orientation

- Antennas are subject to changes in direction or damage due to wind and rain. For best results, contact your nearest service center about proper orientation and/or replacement.

## Using the Remote Control

- Operate remote control within 23 ft. (7m) of the unit.
- Do not press two buttons at the same time.
- Do not store in a dusty or humid location.

# CONNECTING TO A TV

- The default RF Output channel is Ch 4. And you can change it to Ch 3. See "Output Channel" on page 18.

## Various methods of connecting your TV

### Method 1

Unplug the RF cable from the "ANT.IN" Jack on the rear panel of the TV.

Plug this cable into the "RF IN" jack on the rear panel of the Converter Box.

Connect the "RF OUT" jack on the Converter Box to the "RF IN" jack on the TV with another RF cable.

### Method 2 : Connecting to a TV equipped with audio/video in jacks

Use the audio/video cable (*Not supplied*) to connect the "Video Out" jack on the Converter Box to the "Video In" jack on your TV.

Connect the "Audio Out" jack on the Converter Box to the "Audio In" jack on the TV.

Match the color of the cable to the color of the jack.

# MENU OVERVIEW

In this menu system, there are several ways to customize the menu settings provided. Most menus consist of three levels to set up the options, but some require greater depth for the variety of settings. If you press the [MENU] button, only the first and second level of the menu system will appear on the TV screen. The third level can be displayed by pressing [ENTER]. If a menu has more than three levels, the pop-up dialogue box will be displayed as the fourth or fifth level. For navigating the menu levels, you will see ► on the right side of the menu label to help you go to the next level.

## To show and remove the Menu:

Press the [MENU] button on the Remote Control to display the menu. A second press of the [MENU] button or a press of the [EXIT] button will take you back to TV viewing.

## To go to the next level:

Press ► on the Remote Control.

## To go back to the previous level:

Press [MENU] (or ◀) on the Remote Control.

## Typical Menu Operation

### 1 Press [MENU].

The main menu will appear.

### 2 Use [▲▼] to select the desired menu option.

### 3 While the desired menu option is selected, press [►] or [ENTER] to move to the second level.

### 4 Use [▲▼] to select the second menu option.

### 5 Press [►] or [ENTER] to move to the third level.

Some menu options require additional steps.

### 6 Press [MENU] to return to the previous menu or press [EXIT] on the Remote Control to return to TV viewing.

# CHANNEL MENU OPTIONS

## Channel Scan

Automatically finds all channels available through the 'RF IN' source. The unit stores all the active channels found, on the channel list. Inactive or weak channels may not appear on the list. In that case, add missing channels manually with the Manual Scan menu.

The channel list created here can be seen in the Channel Edit menu.

- 1 Press [MENU] to display the on-screen menu.

- 6 Press [MENU] to return to the previous menu or press [EXIT] on the Remote Control to return to TV viewing.

Options to view a picture with a wide (16:9) aspect ratio at 480i or 480p mode output format.

### TIP

While watching TV, you can change the picture aspect ratio using [ASPECT] on the Remote Control.

## Aspect Ratio Descriptions

### Use the [ASPECT] button to choose Aspect Ratios

#### Aspect Ratios available for viewing high definition content

##### Set By Program

Aspect Ratio is set by program.

##### Letter Box

Use for a picture with an original 16:9 aspect ratio (in a wide format). Letterbox mode will shrink the picture to fill the screen, with black/gray (or blank) bars appearing at the top and bottom of the screen.

##### Cropped

Use for a picture filling the entire screen by cropping (removing) the left and right portions of the picture.

##### Squeezed

Use for a full picture filling the entire screen with no black/gray bars. The picture in a 16:9 format will be horizontally adjusted or squeezed to fit the 4:3 ratio Monitor. This setting can also be useful when used with 16:9 aspect ratio monitors or with 4:3 aspect ratio Monitors that have a "16:9 enhancement" feature.

## Menu Language

Select a language for the menus to appear in.

### ACC (Analog Captions)

Allows you to select a mode for displaying Analog Caption Data. In the Analog Caption Service, Caption 1-4 display program's dialog, and Text 1-4 display data service information.

#### NOTES

Analog Captions will appear if they are provided by the broadcaster.

#### Off

Analog Caption is not displayed.

#### Caption 1

Caption 1 is the primary caption service that synchronizes the captioning language with the sound, used by most broadcasters. Captioning is displayed in the same language as the program's dialog.

#### Caption 2

Caption 2 is the special non-synchronous caption service that does not need to be in sync with the sound and may provide simplified captioning, which is usually delayed.

#### Caption 3

Caption 3 serves as an alternate captioning service channel. Captioning is often a secondary language translation such as French, Spanish, simplified English or displayed at a slower rate.

#### Caption 4

Caption 4 is another special non-synchronous caption service that does not need to be in sync with the sound and may provide simplified captioning, usually delayed.

#### Text 1 - 4

Text 1-4 usually displays information on the lower portion of the screen and is used for a data service, generally not program related.

#### TIP

If available, press [CAPTION] repeatedly to select a caption language while viewing TV.

#### NOTES

If DTV and Analog Caption are received simultaneously, you can only select DTV Captions, analog captions will not appear.

**Blocking Off** : All programs with a ratings are blocked.

**TV-G** : General Audience.

Most parents would find this program suitable for all ages. Although this rating does not signify a program designed specifically for children, most parents may let younger children watch this program unattended. It contains little or no violence, no strong language and little or no sexual dialogue or situations.

**TV-PG** : Parental Guidance Suggested.

This program contains material that parents may find unsuitable for younger children. Many parents may want to watch it with their younger children. The theme itself may call for parental guidance and/or the program contains one or more of the following: moderate violence (V), some sexual situations (S), infrequent coarse language (L), or some suggestive dialogue (D).

**TV-14** : Parents Strongly Cautioned.

This program contains some material that many parents would find unsuitable for children under 14 years of age. Parents are strongly urged to exercise greater care in monitoring this program and are cautioned against letting children under the age of 14 watch unattended.

This program contains one or more of the following: intense violence (V), intense sexual situations (S), strong coarse language (L), or intensely suggestive dialogue (D).

**TV-MA** : Mature Audience Only.

This program is specifically designed to be viewed by adults and therefore may be unsuitable for children under 17. This program contains one or more of the following: graphic violence (V), explicit sexual activity (S), or crude indecent language (L).

- 7 Press [MENU] to return to the previous menu or press [EXIT] on the Remote Control to return to TV viewing.

## Movie Rating

Blocks movies according to the movie ratings restrictions so children cannot view certain movies. You can set the ratings to block out all the movies with ratings above a specified level. Keep in mind that the movie ratings apply only to movies shown on TV, not TV programs such as soap operas.

- 3 Select the Movie Rating option using [▲▼].
- 4 Press [▶] or [ENTER] to move to the third level.
- 5 Select a rating using [▲▼] then press [ENTER] to confirm your selection.

**Blocking Off** : All programs with a rating are blocked.

**G** : (General Audiences) Content is not offensive to most viewers.

This is a film which contains nothing in theme, language, nudity and sex, violence, etc. which would be offensive to parents whose younger children view the film. The G rating is not a "certificate of approval," nor does it signify a children's film. Some snippets of language may go beyond polite conversation but they are common everyday expressions. No stronger words are present in G-rated films. The violence is at a minimum. Nudity and sex scenes are not present; nor is there any drug use content.

**PG** : Parental Guidance Suggested. Some Material May Not Be Suitable For Children

The PG rating, suggesting parental guidance, is an alert for examination of a film by parents before deciding on its viewing by their children. This is a film which clearly needs to be examined or inquired into by parents before they let their children see it. The label PG plainly states that parents may consider some material unsuitable for their children, but the parent must make the decision. Parents are warned against allowing their children to see PG-rated movies. The theme of a PG-rated film may itself call for parental guidance. There may be some profanity in these films. There may be some violence or brief nudity. But these elements are not deemed so intense as to require that parents be strongly cautioned beyond the suggestion of parental guidance. There is no drug use content in a PG-rated film.

**PG-13** : PG-13 Parents Strongly Cautioned. Some Material May Be Inappropriate For Children Under 13

PG-13 is a sterner warning to parents to determine for themselves the attendance in particular of their younger children as they might consider some material not suited for them. Parents, by the rating, are alerted to be very careful about viewing by their underage children. A PG-13 film is one which leaps beyond the boundaries of the PG rating in theme, violence, nudity, sensuality, language, or other contents, but does not quite fit within the restricted R category. Any drug use

content will initially require at least a PG-13 rating. In effect, the PG-13 cautions parents with more stringency than usual to give special attention to this film before they allow their 12-year olds and younger to see it. PG-13 places larger responsibilities on parents for their children's movie viewing. The rating system is not a surrogate parent, nor should it be. It cannot, and should not, insert itself in family decisions that only parents can, and should, make. Its purpose is to give prescreening advance informational warnings, so that parents can form their own judgments. PG-13 is designed to make these parental decisions easier for films between PG and R.

**R** : (Restricted viewing) Not for children under age 17. Strong elements of sex and/or violence. Requires Accompanying Parent Or Adult Guardian. The film definitely contains some adult material. Parents are strongly urged to find out more about the film before they allow their children to see it. An R-rated film may include hard language, or tough violence, or nudity within sensual scenes, or drug abuse or other elements, or a combination of some of the above, so that parents are counseled, in advance, to take this advisory rating very seriously. Parents must find out more about an R-rated movie before they allow their teenagers to view it.

**NC-17** : (Restricted Viewing) Not for children under age 17 under any circumstances. Strong sexual content.

This rating declares that this is a film that most parents will consider patently too adult for their youngsters under 17. No children should see the film. NC-17 does not necessarily mean "obscene or pornographic" in the oft-accepted or legal meaning of those words. The reasons for the application of an NC-17 rating can be violence or sex or aberrational behavior or drug abuse or any other elements which, when present, most parents would consider too strong and therefore off-limits for viewing by their children.

**X** : (Hard Core Films) Same as NC-17 rating.

- 6 Press **[MENU]** to return to the previous menu or press **[EXIT]** on the Remote Control to return to TV viewing.
