

MLC 52

BASIC MLC - MEDIALINK™ CONTROLLER

Economical control for
classroom A/V systems

- Universal display control
- Discrete ON and OFF display power controls
- Configurable buttons
- Backlit, easy-to-label buttons
- Three easy ways to configure: IR learning, preconfigured display drivers, and IR beaming
- Inactivity timer for display shutoff
- Front panel security lockout
- Includes black and white high-impact plastic mounting faceplates

Extron® Electronics

www.extron.com

Introduction

The Extron MLC 52 IR and MLC 52 RS Basic MediaLink Controllers are economical control panels ideally suited for classroom A/V systems. Each model comes with a black and white faceplate and offers IR control, while the MLC 52 RS also includes unidirectional RS-232 control. By providing easy input selection, power, and volume control, these controllers make classroom A/V operations simple.

Consistent Control in Every Room

Each MLC 52 controller acts as an extended remote control panel, providing user-friendly control for a display's power, volume, and input selection. Because the MLC 52 IR and MLC 52 RS offer a central point of control for a display device's key functions, they eliminate the need for the display's IR remote control, making operations much more efficient. With the MLC 52 IR and MLC 52 RS, there are no misplaced remotes to search for, no confusing menus to navigate, and no dead batteries.

No matter what brand of display is installed in each presentation venue, the MLC 52 IR and MLC 52 RS MediaLink Controllers always provide a consistent control method from room to room. Presenters with little or no training can walk into any MediaLink equipped classroom and operate the A/V system with minimal effort.

Configurable Buttons for Flexible Control Options

No programming knowledge is necessary to install MLC 52 MediaLink Controllers. The four lower buttons on the MLC 52 IR and MLC 52 RS default to Volume Up, Volume Down, Select PC Input, and Select Video Input. Using the intuitive setup software provided, these buttons can be configured to send out any IR or RS-232 command supported by the display, making it easy to customize the controller to meet the needs of most single-display A/V systems. For example, three of the four buttons could be configured for input selection, with the fourth button dedicated to video mute or auto image.

Each button can store up to four separate commands, providing additional flexibility to meet the specific control requirements for most display devices. When a button is configured for Macro mode, all of the stored commands associated with that button are sent with a single button press. In Toggle mode, the button steps through a series of two, three, or four commands, issuing a single command with each press of the button.

Free Projector drivers

Extron creates and administers a wide selection of commonly used projector control drivers. These IR and serial RS-232 drivers allow MediaLink Controllers to communicate with a display device. They enable control of basic projector functions such as power, input selection, and volume adjustment. Go to the Extron Web site at www.extron.com to download drivers for the latest and most popular projectors.

Three Easy Ways to Configure

The MLC 52 IR and MLC 52 RS enable integrators to choose any of three methods when configuring the controllers. When used with the supplied Windows®-based configuration software, installation files can be saved and used to duplicate additional MLC 52 models. The files can also be archived for later use.

- **IR learning** - Allows MLC 52 controllers to be set up directly from the IR remote without the need for software and a PC.
- **IR beaming** - Quickly and easily duplicates complete configuration from one MLC 52 model to another without cables or software.
- **Extron's easy-to-use configuration software** - Provides fast and simple setup via RS-232 when combined with one of many IR drivers available on the Extron Web site.

MLC 52 RS VC
MediaLink Controller

Overview

Display ON/OFF

Clearly labeled buttons make it easy and convenient to turn the display on and off, eliminating the need for an external display remote

Volume Control

Provides up and down volume control of the display. If volume control is not required, or additional source switching is needed, these buttons can be configured for input selection or other commands

Optional Mount

An optional MLM 52 VC mounting kit can provide a separate volume knob to control Extron MPA – Mini Power Amp series amplifiers

Inactivity timer for display shut-off

Adjustable timer controls automatic shutdown to conserve energy, prevent plasma burn-in, or extend projector lamp life

MLC 52
Front Panel

Compact Size

One-gang design easily mounts in a wall or lectern

Backlit Buttons

Illuminated buttons can be custom-labeled with supplied label insert sheets for easy identification. These buttons are helpful for presenters in low-light environments

Multiple Memories

Each button can store up to four IR or serial RS-232 commands

Configuration Port

Allows for configuration of the MLC 52 via the front panel

Built-In IR Emitter/Receiver

Enables IR learning of commands from IR remote controls. Also provides IR beaming for controller-to-controller configuration without software

Status LEDs

Provide status of IR learning and configuration

MLC 52
Back Panel

Black and White

Includes black and white high impact plastic faceplates and mud ring mount brackets

IR Remote Control Input Port

Hardwired IR input for control with optional IR 402 and IRL 20 or IR Link

Serial RS-232 and IR Ports

Provides serial RS-232 and IR universal display control

MLC 52 Medialink Controller Models

MLC 52 IR

Basic MLC - MediaLink™ Controller with IR Display Control

UNIQUE FEATURES

- IR port for universal display control
- One-gang faceplate

MLC 52 RS

Basic MLC - MediaLink Controller with IR and RS-232 Display Control

UNIQUE FEATURES

- IR and RS-232 ports for universal display control
- One-gang faceplate

MLC 52 IR VC

Basic MLC - MediaLink Controller with IR and Volume Control

UNIQUE FEATURES

- IR port for universal display control
- Integrated volume control knob with 10k potentiometer controls MPA - Mini Power Amplifier
- Two-gang faceplate

MLC 52 RS VC

Basic MLC - MediaLink Controller with IR, RS-232, and Volume Control

UNIQUE FEATURES

- IR and RS-232 ports for universal display control
- Integrated volume control knob with 10k potentiometer controls MPA - Mini Power Amplifier
- Two-gang faceplate

Sheets of pre-printed button label inserts are included with every MediaLink Controller.

MLC 52 MOUNTING OPTIONS

MLC 52 Controller models can be mounted in a standard electrical box or the included mud rings, allowing the controller to be installed virtually anywhere, including walls, lecterns, or tables. Additional mounting options include:

MLM 52 1GWP

One-gang wall mounting kit with metal faceplate, available in black or white.

MLM 52 L VC

Metal lectern mounting kit with an integrated volume control knob that allows for remote volume control of an Extron MPA Mini Power Amplifier. Available in black or white.

MLM 52 VC

Two-gang wall mounting kit with an integrated volume control knob that allows for remote volume control of an Extron MPA Mini Power Amplifier. Includes both black and white high-impact plastic mounting faceplates. Also available with black or white metal mounting faceplate.

Application Diagram

Specifications

CONTROL/REMOTE – MLC CONTROLLER HOST PORTS

Serial control port	1 front panel 2.5 mm mini stereo jack (tip-ring-sleeve)
Baud rate and protocol.....	9600 baud, 8 data bits, 1 stop bit, no parity
Serial control pin configurations.....	Mini stereo jack: tip = TX, ring = RX, sleeve = GND
Program control.....	Extron's configuration program for Windows® Extron's Simple Instruction Set (SIS™)

CONTROL – PROJECTOR/PLASMA (MLC 52 RS)

Projector control port	(1) 3.5 mm direct insertion captive screw connector, 6 pole for IR and 1-way RS 232 control (port is shared between power input and IR and 1-way RS-232 projector control)
IR control	TTL level (0 to 5 V) modulated infrared control from 30 kHz up to 1 MHz
RS-232 control RS-232 control (1-way)	±5 V
Baud rate and protocol (RS-232)	57600 to 1200 (9600 default) baud (configurable); 8 (default) or 7 data bits; 1 stop bit (±5 V); no parity (default), or even or odd parity
IR learning frequencies.....	30 kHz to 62 kHz
IR learning distance	4" (10 cm) to 14" (36 cm) from the front panel

CONTROL – PROJECTOR/PLASMA (MLC 52 IR)

Projector control port	(1) 3.5 mm direct insertion captive screw connector, 6 pole for IR (port is shared with power input)
IR control	TTL level (0 to 5 V) modulated infrared control from 30 kHz up to 1 MHz
IR learning frequencies.....	30 kHz to 62 kHz
IR learning distance	4" (10 cm) to 14" (36 cm) from the side panel

GENERAL

External power supply	100 VAC to 240 VAC, 50/60 Hz, external, autoswitchable; to 12 VDC, 1 A, regulated
Power input requirements	12 VDC, 0.15 A
Rack mount.....	No, but wall- and furniture-mountable
Enclosure type	High-impact plastic or metal
Enclosure dimensions	
MLC 52 faceplate	4.5" H x 2.75" W x 0.13" D (11.4 cm H x 7.0 cm W x 0.3 cm D) (1 gang)
MLC 52 VC faceplate	4.5" H x 4.6" W x 0.1" D (11.4 cm H x 11.7 cm W x 0.3 cm D) (2 gang)
Device.....	2.5" H x 1.6" W x 1.5" D (6.4 cm H x 4.1 cm W x 3.8 cm D) (Depth excludes connectors and buttons.)
Product weight	0.2 lbs (1 kg)
Shipping weight.....	3 lbs (2 kg)
Vibration	ISTA 1A in carton (International Safe Transit Association)
Listings.....	UL, CUL
Compliances	CE, FCC Class A, VCCI, AS/NZS, ICES
MTBF.....	30,000 hours
Warranty	3 years parts and labor

NOTE: All nominal levels are at ±10%

GENERAL (CONT.)

Model	Version Description	Part Number
MLC 52 IR	IR Control - Black & White.....	60-744-02
