SAFETY PRECAUTIONS

ENGLISH

PRECAUTIONS FOR USE

To ensure safe, appropriate use of your personal CD player, please follow the advice below:

LOCATION

- Do not use the product in extremely hot, cold, dusty or damp conditions.
- Place the product on a smooth, flat surface.
- Ensure that air is free to circulate through the product. Do not use it in a poorly ventilated place, cover it with a cloth or place it on carpet.

POWER SUPPLY

- Before using the product, check that its rated voltage is suitable for your mains supply.

SAFETY PRECAUTIONS

- When you plug in or unplug the power cord, always hold the plug rather than the cable. Pulling the cord could damage it and create a hazard.
- Always unplug the product from the mains if you do not intend to use it for an extended period.
- The STANDBY button does not disconnect the product from the mains power supply. To disconnect the product from the power supply, you must unplug the power cord.
- This product should only be used in a horizontal position.
- The rating label is located at the bottom of the cabinet.

CONDENSATION

- Water droplets or condensation may form inside the CD player if it is left in a warm, damp atmosphere.
- The product may not operate correctly if condensation forms inside it.
- Leave the product in a warm, dry room for 1 to 2 hours to allow the condensation to evaporate.

In the event of a problem, unplug the power cord and contact Grundig Helpline: 1800 509 394 Australia. Grundig Helpline: 0800 450 259 New Zealand

WARNING: VENTILATION

Your personal CD player has ventilation holes, which should never be obstructed.

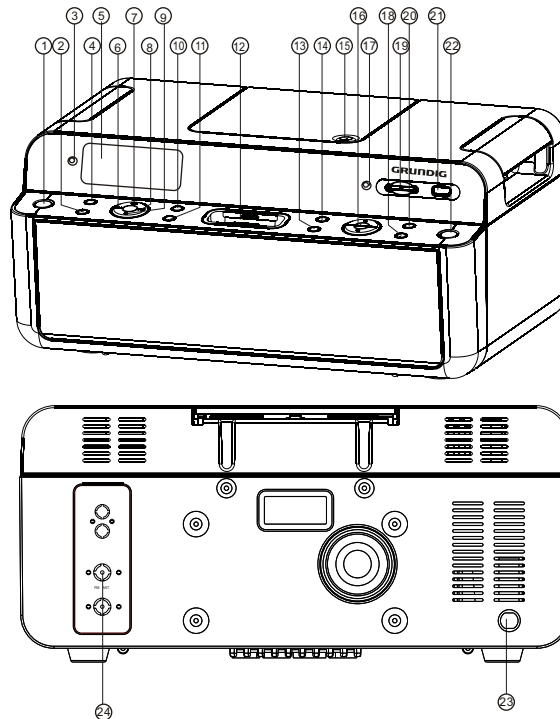

LIQUID WARNING

Never allow liquids to splash or drip onto the product. Never place a liquid-filled container (e.g. vase, jar, etc.) above it.

- The apparatus shall not be exposed to dripping or splashing liquids, no objects filled with liquids, such as vases, shall be placed on the apparatus
- The mains plug is used as the disconnect device and it shall remain readily operable. To be completely disconnect the power input, the mains plug of apparatus shall be disconnected from the mains.
- The apparatus will be use in open area
- The ventilation should not be impeded by covering the ventilation openings with items such as newspaper, table-cloths, curtains etc
- No open flame sources such as lighted candles should be placed on the apparatus;
- Attention should be drawn to the environmental aspects of battery disposal;
- Only use the apparatus in moderate climates.

CAUTION

Usage of controls, adjustments, performance or procedures other than those specified herein may result in hazardous radiation exposure. This unit should not be adjusted or repaired by anyone except a qualified service person.

IMPORTANT

Since movement of the CD mechanism and the sensitive circuitry may cause interference to the radio tuner nearby, switch this unit off while operating other radio devices.

PRECAUTIONS FOR USE

INSTALLATION

Unpack all parts and remove protective material. Do not connect the unit to the power outlet before checking the voltage and before all other connections have been made. Do not cover any vents and make sure that there is a space of several inches/centimeters around the unit for ventilation.

CONNECTION

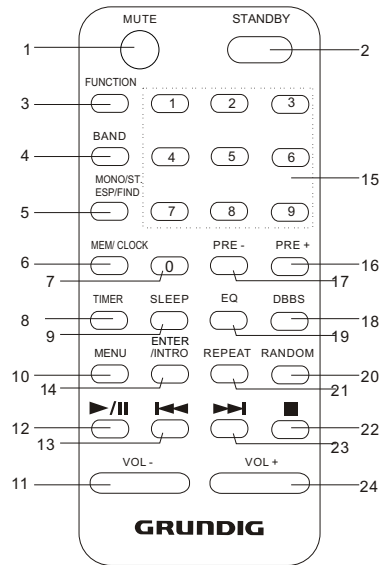

1. Connect the power cord to AC outlet.
2. When you first plug the unit into the power outlet, the unit will go into standby mode, the display will blink the un-set clock.
3. Turn on the power and select CD function. If the LCD display is on with backlighting, it means the power supply is normal and your system is ready to play music.

LOCATION OF CONTROLS

ENGLISH

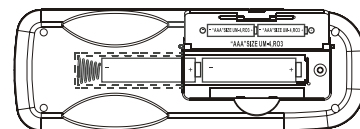

REMOTE CONTROL HANDSET

1. **MUTE**: Press to activate/de-activate MUTE function.
2. **STANDBY**: Press to turn power On or Off.
3. **FUNCTION**: Press to select the system for CD/TUNER /iPod or CARD-USB.
4. **BAND**: Press to select TUNER mode or to select BAND (FM or MW).

To go back to the previous menu	Press the MENU button on remote control.

Use provided iPod dock adapters if iPod dock adapter not included with your iPod at the time of purchase.

FINDING THE CORRECT IPOD ADAPTOR

There are 8 iPod dock adapters included, refer to below list for corresponding iPods. Please use the correct iPod dock adapter in the dock on the unit gently as described in page 7.

NOTE: If you connect an iPod without fitting the correct adaptor, you may damage the iPod and your Music System.

LIST OF COMPATIBLE IPOD MODELS

iPod nano (first generation)

Use adaptor No.11.

iPod nano (second generation)

Use adaptor No.8.

iPod mini(4GB or 6GB)

Use adaptor No.3.

iPod video (30GB)

Use adaptor No.9.

iPod video (60GB or 80GB)

Use adaptor No.10.

iPod photo, with a colour display(40GB or 60GB)

Use adaptor No.7.

iPod, with a B&W display and clickwheel with legends on wheel (20GB)

Use adaptor No.4

iPod, with a B&W display and clickwheel with legends on wheel (40GB)

Use adaptor No.5.

TO CHARGE THE BATTERY

When the iPod is connected to this unit, the battery will start charging.

Fig.1: this icon will show when the battery is charging.

Fig.2: this icon will show when the battery is full charged.

You can set your CD Player to play a preset selection of tracks.

TO PROGRAM SPECIFIC TRACKS

1. Press the ■ so the CD is not playing then press the MEMORY button. The LCD display will show 00 P--01. The first two digits 00 are where the selected track number is entered, P--01 is the program counter which will increment after a track is entered.
2. Press either ►► or ◄◄ until the required track number is shown. The LCD displays the selected track and the program counter P--01.
3. Press the MEMORY button again, the LCD will now display 00 P-02 and is ready for another track to be entered.
4. Repeat steps 2 and 3 above until all the tracks are stored.
5. To clear a program so the program counter is reset to 00 P--01 press the ■ button.
6. To play the programmed tracks press the ►► button.
7. When playing a program you can skip through the programmed selection using the ►► and ◄◄ buttons.
8. After all the programmed tracks have been played, the CD player stops automatically and your programmed selection is cleared.

Note: There can be up to a maximum of 64 tracks stored, the same track can be stored more than once.

REPEAT DISC PLAY

You can set your CD player to repeat a single track, the whole CD or your programmed selection of tracks.

TO REPEAT A SINGLE TRACK DURING PLAY MODE

1. Press either ►► or ◄◄ buttons to select the track you wish to repeat. The LCD display shows the selected track and the track will play.
2. Press the REPEAT button until the LCD display shows 'Repeat'. The selected track will play continuously until you press the ■ button.
3. To cancel the repeat function and to continue playing the CD press the REPEAT twice.

TO REPEAT A SINGLE TRACK DURING STOP MODE

1. Press either ►► or ◄◄ buttons to select the track you wish to repeat. The LCD display shows the selected track.
2. Press the REPEAT button until the LCD display shows Repeat.
3. Press the ►► button to start repeat single play.

CD PLAYER

TO REPEAT THE ENTIRE CD DURING PLAY MODE

1. Press the REPEAT button until the LCD display shows 'Repeat All'. The entire disc will play continuously until you press the ■ button.
2. To cancel the repeat function and to continue playing the CD press the REPEAT button again.

TO REPEAT THE ENTIRE CD DURING STOP MODE

1. Press the REPEAT button until the LCD display shows 'Repeat All'.
2. Press the ►|| button to start repeat entire play.

TO REPEAT A PROGRAMME SELECTION

Select your programmed tracks as described previously.

1. Whilst the programmed selection is playing press the REPEAT button until the LCD display shows Repeat All. The programmed tracks will play continuously until you press the ■ button.
2. To cancel the repeat function and to continue playing the CD press the REPEAT button twice.

TO SET RANDOM PLAY DURING PLAY MODE

In this mode the CD player will play tracks once in a random order.

1. Press the RANDOM button until the LCD display shows 'Random'. The track playing will continue to play, then tracks are played in random order until you press the ■ button.
2. To cancel the random function and to continue playing the CD press the RANDOM button again.

TO SET RANDOM PLAY DURING STOP MODE

1. Press the RANDOM button until the LCD display shows 'Random'.
2. Press the ►|| button to start random play. Tracks are played in random order until you press the ■ button.

TO SET INTRO PLAY DURING PLAY OR STOP MODE

In this mode the CD player will play the first 10 seconds of each track on the CD, then stop playing.

1. Press the INTRO button until the LCD display shows 'INTO'. The first 10 seconds of each track will then play.
2. To cancel the intro function before the end of the CD is reached and to continue to play the CD press the INTRO button again.

LOADING AND PLAYING MP3 DISCS

1. Press the FUNCTION button until CD is show on the display.
2. To open the CD lid press the ▲ on the CD lid. The LCD display shows Open.
3. Place the MP3 disc in the compartment with the label side facing upwards.
4. To close the CD lid the CD player starts to spin the disc, the LCD will display CD READ.

3. Press the **▶|** button to start play. All tracks within the folder currently playing will now be repeated continuously.
4. To cancel the repeat folder function and to continue playing the CD press the **REPEAT** button again.

SOUND CONTROL

MUTE FUNCTION

To mute the sound, press the MUTE button, "MUTE" will flash on the LCD display. Press the MUTE button again to restore the sound.

PRESET EQ FUNCTION

The unit has 5 preset equalizer. The presets are PASS, CLASSIC, ROCK, POP and JAZZ. The equalizers enhance certain frequency groups to suit the type of audio output. To select a preset press the EQ button until desired preset appears on the LCD display

USING THE USB AND SD/MMC CARD

USB PORT

USB Devices such as USB (memory sticks) Flash Drives and MP3 players containing MP3 files can be connected to the **USB PORT**.

INSTALLING A USB DEVICE

Ensure the USB device is switched on, before connecting.

1. Remove SD/MMC card from the card slot then connect the USB device to the USB PORT.
Note: Installing a USB device incorrectly could damage the product.
2. Press the **STANDBY** button to turn on the product.
3. To select the **USB** mode, repeatedly press the **FUNCTION** button until '**CARD - USB**' appears on the LCD display.
 - After the unit has read the USB device, the total number of tracks will appear on the LCD display.
 - If no MP3 files are present on the USB device, '**NO FILES**' will appear on the LCD display.

REMOVING A USB DEVICE

To remove a USB device, press the ■ button, and switch the unit to **STANDBY**, or select one of the other functions (Tuner/CD). Pull the USB device directly out from the USB Port.

SD/MMC CARD

SD/MMC (Multi Media Cards) Cards containing MP3 files can be inserted into the unit.

INSTALLING A SD/MMC CARD

1. Remove USB device if plugged, push the card into the **CARD SLOT** gently with the label side facing upwards until you feel it click. When inserting a card.
Note: Installing a card incorrectly could damage the product.
2. Press the **STANDBY** button to turn on the unit.
3. To select the **CARD** mode, repeatedly press the **FUNCTION** button until '**CARD-USB**' appears on the LCD display.
 - After the unit has read the Card, the total number of tracks will appear on the LCD display.
 - If no MP3 files are present on the card, '**NO FILES**' will appear on the LCD display.

REMOVING A SD/MMC CARD

To remove a card, either switch the unit to **STANDBY** mode, or select one of the other functions (Tuner/CD). Push the card inwards to release from the Card Slot.

The operation and play modes are as previously described for MP3 discs.

Note: This unit has been designed where possible to be compatible with most makes of USB device and SD/MMC card. Due to the many varied types available, we cannot guarantee that all makes and models are able to be used.

MAINTENANCE

CARE OF THE COMPACT DISC

- To remove a disc from its storage case, press down on the center of the case and lift the disc out, holding it carefully by the edges.

- Fingerprints and dust should be carefully wiped off the disc's recorded surface with a soft cloth. Unlike conventional records, compact discs have no grooves to collect dust and microscopic debris. Wiping with a soft cloth should remove most particles. Wipe in a straight line from the inside to the outside of the disc. Small dust particles and light stains will have absolutely no effect on reproduction quality.

- Clean the disc periodically with a soft, lint-free, dry cloth. Never use detergents or abrasive cleaners to clean the disc. If necessary, use a CD cleaning kit.
- Never write on or affix labels to the surface of compact discs.

CARE OF THE CABINET

If the cabinet becomes dusty wipe it with a soft dry dust cloth. Do not use any wax, polish sprays, or abrasive cleaners on the cabinet.

CAUTION

Never allow any water or other liquids to get inside the unit while cleaning.

TROUBLESHOOTING

If a fault occurs, first check the points listed below before taking the set for repair. Do not open the set as there is a risk of electric shock.

If you are unable to remedy the problem by following these hints, call Grundig Helpline: 1800 509 394 Australia Grundig Helpline: 0800 450 259 New Zealand.

Warning: Under no circumstances should you try to repair the set yourself, as this will invalidate the warranty

Problem	Cause	Solution
No sound / power	Volume not adjusted	Adjust the Volume
	Power cord not securely connected	Connect the AC cord properly
Display does not function properly / No reaction to operation of any of the controls	Electrostatic discharge	Switch off and unplug the set. Reconnect after a few seconds
The CD skips tracks	CD damaged or dirty	Replace or clean CD
	Program is active	Quit program mode
No disc indication	No CD inserted	Insert a CD, CD-R or CD-RW
	CD badly scratched or dirty	Replace or clean CD
	Laser lens has steamed up	Wait until lens has cleared
	CD-R is blank or the disc is not finalized	Use a finalized CD-R
CD Playback does not work	CD badly scratched or dirty	Replace or clean CD
	Laser lens steamed up	Wait until lens has adjusted to room temperature
USB / Memory card failure	USB / Memory Card connecting error	Unplug and reinsert memory card or USB stick
	USB / Memory Card does not contain playable files	Use a USB / Memory Card containing MP3 or WMA files

WARRANTY

Please keep your receipt as proof of purchase. This product is warranted for any defect in materials or workmanship for one year after the original date of purchase. This product is for normal domestic and office use only. This warranty does not cover damage from misuse or neglect, accidental damage, vermin infestation, excessive voltages such as lightning or power surges or any alternation that affects the performance or reliability of the product.

In the unlikely event that your product fails to work normally, please contact **Grundig Warranty on 1800 509 394 (Australia) or 0800 450 259 (New Zealand)** and have your receipt of purchase on hand.

This warranty is subject to the following provisions:

- It is only valid within boundaries of the country of purchase;
- The product must be correctly assembled and operated in accordance with the instructions contained in the manual;
- This product must be used solely for domestic purposes;
- The warranty does not cover accidental damage;
- The warranty will be rendered invalid if the product is resold or has been damaged by inexpert repair;
- The manufacturer disclaims any liability for incidental or consequential damaged.

This warranty is in addition to, and does not diminish, your statutory or legal rights.
