FCC Compliance Statement

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Caution: To assure continued compliance, only use shielded interface cables when connecting to computer or peripheral devices. Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

What's in the Box

Qty	Item	Image
1	Digital Picture Frame	
1	Remote Control Replacement Battery = CR2025	
1	Universal Power Adapter (5V, 2A)	
1	USB Cable	
1	User Manual with Declaration of Conformity	
1	Quick Start Guide	
1	Warranty Document	

Getting Started

Identifying the parts

Front view

LCD (Liquid Crystal Display) panel

Rear view

Left view**Right view**

Installing the Foot Stand

1. On the back of the frame, align the foot stand with the lock slot.

2. Install the foot stand onto the frame as illustrated until it clicks into place.

Powering on the Frame

1. Plug the AC power adapter into the power outlet, then plug the other end into the power socket of the frame.

2. Insert a memory card (to be purchased separately) to the appropriate card slot.

Note:

- You can also view the demo images preloaded in the internal memory of this frame without inserting a memory card.
- Supported memory card type: Secure Digital™, xD-Picture Card™, MultiMedia Card™, Memory Stick™, and Memory Stick PRO™.
- Both 5-in-1 and CF memory card slots support hot-swap function.
- When one memory card is inserted and then a second one is inserted, the frame only will display files from the second one.
- When two memory cards are inserted simultaneously and the power is turned off and then back on, the frame only will display files from the SD card.
- This frame may not read all image or video files downloaded from the Internet.

3. Turn on the frame by sliding the power switch to the ON position.

Using the Digital Photo Frame

Using the control buttons

You can operate this frame by pressing the control buttons which are located on the back of the frame. The icons at the top of the screen correspond to the control buttons. If there are no icons at the top of the screen, then press any of the control buttons to display the icons.

Note: • Control buttons do not always perform the same function between modes.

Using the remote control

This frame comes with a remote control. Below is a table of all the buttons and a description of their functions.

Note: • This guide assumes you are using the remote control to control the frame.

Cleaning and Care Tips

- ✓ Please power off the HP Digital Picture Frame before cleaning.
- ✓ **DO NOT** push on the screen too firmly.
- ✓ **DO NOT** spray or pour liquid cleaning agents directly on the screen or frame.
- ✓ **DO NOT** use ammonia, alcohol, or abrasive detergent cleaning agents.

Cleaning the Screen:

1. Wipe screen with a clean, soft, lint-free cloth to remove dust and loose particles.
2. If further cleaning is required, apply an appropriate cleaning agent (approved for LCD displays) to a clean, soft, lint-free cloth and wipe the screen.

Cleaning the Frame and Backing:

1. Use a clean, soft, lint-free cloth to remove dust and loose particles.
2. If desired, apply an appropriate cleaning agent to a clean, soft, lint-free cloth and wipe the appropriate surfaces.

Getting Help

Should your HP Branded Product require service within the Warranty period, please contact the original point of purchase or an authorized HP reseller in your country. If service is not available at those locations, please contact an HP Branded Product warranty agent from the support contact list provided on this document. Supported languages are: English, French, German, Italian, Portuguese and Spanish. A warranty agent will work with you to troubleshoot your issue and if necessary, issue a Return Material Authorization (RMA) number in order to replace your HP Branded Product. For warranty claims, you will be required to provide a copy of your original dated sales receipt as proof of purchase and the issued RMA number. End User customer shall be responsible for shipping charges when shipping the product to the service center. The service agent will provide you with an address and you will also be responsible for any shipping charges to the warranty service center. Once your product is received by the service center, a replacement frame will be shipped back to you within 5 business days.
