2. Read Before Installation

Technical Notes

For Windows 98/98 SE systems

- HID (Human Interface Device) driver must be installed prior to using the USB KVM switch. To install the HID driver, first connect a USB keyboard and mice directly to computer (before installing KVM switch) then follow the Windows installation instructions, this will install the HID device driver and allow the use of the KVM switch.

Note : Failure to do so may result in Windows not being able to detect keyboard and mouse.

- If a mouse recognition error is displayed during system boot:

“Windows did not detect a mouse attached to the computer. You can safely attach a serial mouse now. To attach a mouse to a PS/2 mouse port, you must first turn the computer off”

a) Press the Tab key once to select the check box.

b) Press the Space bar once which will place a check in the box “Do not show this message again”

c) Press the Enter key once and Windows will continue to boot and will then recognize the mouse.

Operating System Compatibility

- Any USB-enabled operating system such as Windows® 98, Windows® 98SE, Windows® 2000, Windows® XP or higher.
- Windows® 95 are not recommended because of immature USB support.

3. Introduction

NVP Series is a combination of keyboard, mouse and monitor into a drawer, with features such as flip-up design, adjustable brackets, built in LCD OSD to provide effective assistant for an administrator to control PC system.

NVP Series provides cost effective for your limited IT budget over using CRT and rack mounting. Also, it will be space saving for your compact environment rack and effective assistant for an administrator to control PC system.

4. Features

- Adjustable mounting brackets from 390 to 790mm (front to rear 19" mount)
- Lightweight aluminium construction—with black anodise finish
- Slim Size keyboard with GlidePoint™ touch pad mouse
- Standard D-Sub 15-pin VGA input connector
- Supplied with 12V 5A remote power adapter (single power resource)
- Directly compatible with SUN Microsystems resolution 1152 x 900
- Built-in SUN Microsystems Hot Key without any converter
- Built in On Screen Display controlled by integral membrane switches.
- Unique mechanical design to maximize rack mountable space
- Unique monitor flip-up design allows viewing through closed glass door of cabinet.
- Built-in KVM switch function for easy controlling and monitoring up to 16 residing servers / platforms
- Auto scan mode for monitoring PCs and flexible scan time from 5 ~ 99 seconds
- Hot Pluggable—Add or remove computers without powering down the switch
- Easily switch Individual button to select the PC channel using the pushbutton channel selector switches, Hot Keys, or via the On-Screen Display (OSD) Menu

Disclaimer

This information is subject to change without notice. The producer of this manual accepts no responsibility for damage or claims, resulting from misuse or misinterpretation

5. Package Contents

LCD Monitor Drawer with USB KVM Switch	1 Piece
User Manual	1 Piece
DC Power Adapter	1 Piece
Power Cord	1 Piece
Mounting Bracket	1 Pair
Fasteners	4 Pieces
NB-6 2-in-1 KVM cable	8 Pieces

Before Unpacking

It is very important to locate the LCD Keyboard Drawer in a suitable environment.

- The surface for placing and fixing the LCD Keyboard Drawer should be stable and level or mounted into a suitable cabinet.
- Make sure the place has good ventilation, is out of direct sunlight, away from sources of excessive dust, dirt, heat, water, moisture and vibration.
- Convenience for connecting the LCD Keyboard Drawer to the related facilities should be well considers too.

Unpacking

The LCD Keyboard Drawer comes with the standard parts shown as above. Check and make sure they are included and in good condition. If anything is missing, or damage, contact the supplier immediately.

6. Optional Accessories

KVM Cable	
NB-6 / 10 / 15	6ft / 10ft / 15ft USB 2-in-1 cable
Cascade Cable	
????	6ft USB Cascade cable
Others	Video Input
	24V / 48V DC Power Supply

7. Peripheral Products

Model	Description
NV-S801	8-Port USB KVM switch
NV-S1601	16-Port USB KVM switch
NV-S101	CAT.5 USB KVM extender

8. Important Safeguards

Please read all of these instructions carefully before you use the device.
Save this manual for future reference.

- Unplug the LCD Keyboard Drawer from the power outlet before cleaning.
- Do not spray liquid cleaners or aerosol directly on the device. Wet a cloth with a neutral detergent (e.g. clean water) and squeeze it tight, then clean the screen slightly with it.
- Do not expose the LCD Keyboard Drawer directly to rain, water, moisture or sunlight.
- Avoid pressure on the LCD screen to prevent permanent damage to the display.
- Do not attempt to service the device yourself. Improper operation may void your warranty. Refer all servicing to qualified service personnel.
- Safe storage environment of the LCD Keyboard Drawer is ranging between -20°C and 60°C . Permanent damage could occur if the LCD Keyboard Drawer is stored outside the safe range.
- Unplug the LCD Keyboard Drawer immediately and call qualified service personnel under the following conditions:
 1. If the monitor has been exposed to rain, liquid or water.
 2. If the monitor has been dropped or the casing has been damaged.

What the warranty does not cover

1. Any product, on which the serial number has been defaced, modified or removed.
2. Damage, deterioration or malfunction resulting from:
 - a) Accident, misuse, neglect, fire, water, lightning, or other acts of nature, unauthorized product modification, or failure to follow instructions supplied with the product.
 - b) Repair or attempted repair by anyone not authorized by us.
 - c) Any damage of the product due to shipment.
 - d) Removal or installation of the product.
 - e) Causes external to the product, such as electric power fluctuation or failure.
 - f) Use of supplies or parts not meeting our specifications.
 - g) Normal wear and tear.
 - h) Any other causes which does not relate to a product defect.
3. Removal, installation, and set-up service charges.
